# First World Cup - F3A AEROBATICS in the Rhône Alpes region since 1953 !

The MACB is a club founded 80 years ago to develop the practice of model aircraft by teaching to build and fly models while sharing technical skills and teaching piloting of controlled aircrafts. The club has 125 members and is recognized as a French school of model aircrafts.

<https://www.macb.fr/>

The MACB organizes international events with some of the best pilots in the world. In 2022, the club organized the FXFC, a freestyle contest with 40 of the best pilots from 18 different countries. This event was televised to over 15 000 people.

<https://www.youtube.com/watch?v=LAm2CMZ2gVs>

The MACB organizes a unique competition in France; an F3A World Cup the 22<sup>nd</sup> and 23<sup>rd</sup> of June 2024. It will be hosting 30 of the best pilots in the world, 3 world champions and 10 different countries. This competition will help select the pilots for French and Swiss team at world championships hosted in Switzerland in 2025

# World Cup - F3A AEROBATICS

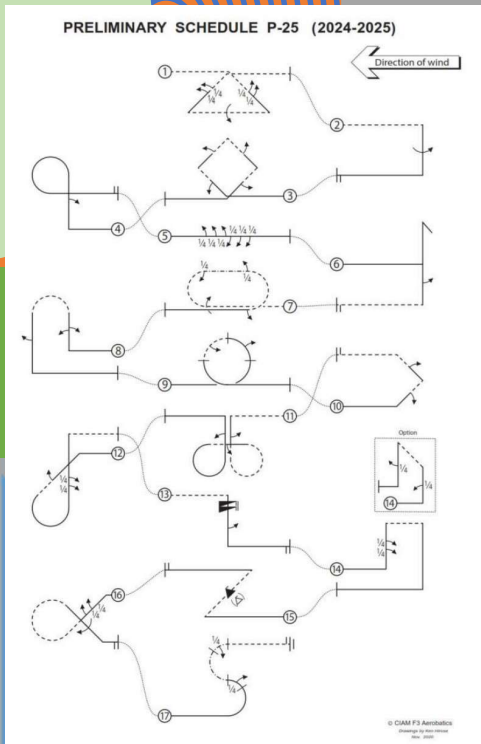

The competition consists of a series of 4 flights by pilot. The pilots will have to execute aerobatic maneuvers from the P-25 and F-25 programs. The scoring criteria is based the geometrical aspect of flight; the positioning of maneuvers and the rhythm at which they are performed. The duration of a flight is about 9 minutes to realize the 17 maneuvers of the program. The planes use the latest technologies in construction , aerodynamics, and propulsion systems.

# Become sponsors of the World Cup - F3A AEROBATICS !

The MACB is looking for businesses to either financially sponsor this event or to donate hardware. In return, the MACB will represent these companies :

- Internet web page dedicated to the event sponsors:  
<https://www.macb.fr/sponsors>
- Displaying of the brands on banners on the field during the event

Maxime Schmitt - France

<https://www.macb.fr/site-de-reyrieux>

- The addition of the company logo on the documents of presentation
- The addition of the company logo on the official T-shirt of the competition
- The possibility to display productions in relation to model aircrafts
- Other possible formats to discuss

Position

We are looking for: A source of “green” and silent energy, tents to shield from the sun, prizes for the winners, ways to print banners, water supply , portable toilets and other things to help with the organization of the event.

CONTACT

# Why become a sponsor of the World Cup - F3A AEROBATICS ?

Your help, along with the success of this competition will enable your company to shine locally and internationally.

For us, it is also a way to help and train the younger generation in different technical aspects of the hobby that is model aircrafts as well as the skill of piloting these aircrafts, all while sharing a unique event with some of the best pilots in the world !
